

# LESS SETUP MEANS

# BIG

# SAVINGS

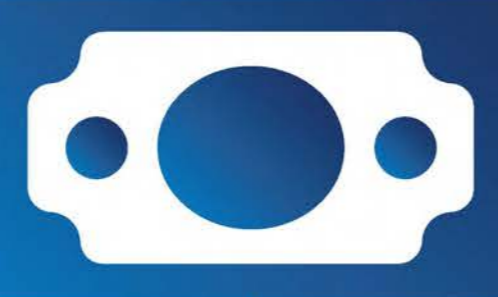

**Business as usual** could cost you thousands of dollars and waste hundreds of hours of productive time. Transform your mobile welding jobs using the Miller® Venture™ 150 S battery powered welder. Weld operators can get more done – meaning your business can save time and make more money.

# Assuming you pay

4

**Welding Operators**

**\$45/hour**

5

**Days a week**

400Wh

**50 Weeks**

Investing in the Venture™ 150 S today can add up to big savings over time.

# A YEAR **WITHOUT** VENTURE™ 150 S

**150 Hours** running leads

**100 Hours** down time due to tripped breakers

**Safety** concerns during remote jobs

**Additional** labor and transportation required

# A YEAR **WITH** VENTURE™ 150 S

**\$27,000 Saved** on time running leads

**\$18,000 Saved** on down time due to blown breakers

**More Jobs** complete in less time

# BATTERY IN. POWER ON. JOB DONE.

Is setup time costing you time and money?  
Upgrade your workflow with technology  
built to move the industry forward.
